Salt Lake City, Utah 84116

NOTICE OF INTENTION TO COMMENCE MINING OPERATIONS
(See Rule M of General Rules and Regulations)

1. Name of Applicant or Company Interstate Brick
Corporation (☒) Partnership () Individual ()
2. Address 9210 South 5200 West, West Jordan, Utah 84084
Permanent Temporary
3. Name and title of person representing company Harvey P. Cahoon
4. Address 9210 So. 5200 West, West Jordan, Utah 84084 Office Phone 561-1471
5. Location of Operation Utah Sec. 12 & 13T. 7S R. 1W
County
6. Name of Mine JIM GAY
7. Mineral to be mined: Mining method:
() Coal () Flagstone
() Copper () Gravel
() Manganese () Shale Open Pit
() Iron Ore () Uranium
() Phosphate () Gilsonite
() Potash () Bituminous Sandstone
() Fluorspar () Tungsten
(X) Other (specify) Clay

8. Have you or any person, partnership or corporation associated with you received an approved Notice of Intention to Commence Mining Operations by the State of Utah for operations other than described herein?

() Yes (X) No

If yes, list all approval numbers now under surety:

9. Owner/Owners of record of the surface area within the land to be affected:

Private Property: Wallace Davis Address 492 East 1960 South, Orem, Utah 84057

Claims: Interstate Brick Address 9210 So. 5200 West, West Jordan, Utah 84084

10. Owner/Owners of record of minerals to be mined:

Private Property: Wallace Davis Address 492 East 1960 So., Orem, Utah 84057
Claims: Interstate Brick Address 9210 So. 5200 West, West Jordan, Utah 84084

Address _____

Address _____

11. Owner/Owners of record of all other minerals within any part of the land affected:

Private Property: Wallace Davis Address 492 E. 1960 So., Orem, Utah 84057
Claims: Interstate Brick Address 9210 S. 5200 W., West Jordan, Utah 84085

Address _____

11a. Have the above owners been notified in writing?
() Yes (X) No On Going Operation for the Past 20 Yrs.

12. Source of Operator's legal right to enter and conduct operations on land to be covered by the Notice Lease with Wallace Davis and Claims.

13. Approximate acreage to be disturbed: 30 Acres Maximum disturbed, unreclaimed area
Mining Operation Area: 25 acres + Presently disturbed
(include operations, storage, & disposal area)
Total area leased or claimed 150 Acres
Access Road or Haulage way: 0 acres + Use Existing Roads
Drainage System: 0 acres =
Total Acres: 25 Acres

14. Give the names and post office addresses of every principal Executive, Officer Partner, (or person performing a similar function) of Applicant:

Name:	Title:	Address:
a. <u>Harold P. Cahoon</u>	<u>Pres. & General Mgr.</u>	<u>9210 So. 5200 West, West Jordan, Utah 84084</u>
b. <u>Harvey P. Cahoon</u>	<u>Asst. General Manager</u>	<u>" " "</u>
c. _____	_____	_____
d. _____	_____	_____

15. Has Applicant, any subsidiary or affiliate or any person, partnership, association, trust, or corporation controlled by or under common control with Applicant, or any person required to be identified by Item 14, ever had an approval of a Notice of Intention withdrawn or has surety relating thereto ever been forfeited? () Yes (X) No

If yes; explain:

STATE OF UTAH

COUNTY OF SALT LAKE

I, Harvey P. Cahoon, having been duly sworn
depose and attest that all of the representations contained in the foregoing
application are true to the best of my knowledge; that I am authorized to
complete and file this application on behalf of the Applicant and this
application has been executed as required by law.

Signed: Harvey P. Cahoon

Taken, subscribed and sworn to before me the undersigned authority
in my said county, this 2nd day of March, 19 77.

Notary Public John F. Fennell

My Commission Expires: 12/29/78

MINING AND RECLAMATION PLAN
(Other forms may be used in lieu of MR 2, provided
they contain the same information)

1. Name of Applicant or Company Interstate Brick
2. Proposed type of operation Clay Mining
3. (a) Prior Land Use(s) Grazing
(b) Current Land Use(s) Clay Mining
(c) Possible or Prospective Future Land Use(s) Grazing & Sanitary Land Fill
4. What vegetation exists on the land proposed to be affected Sage

(a) Types and Estimated Percent cover or density: 50% Sage
5. What is the range pH of soil before mining? 7.5 pH
Name of Person or Agency and method of determining pH Harvey P. Cahoon
6. Site elevation above sea level 4800 Ft.
7. In case of coal, oil shale, and bituminous sandstone:
Principal seam(s) and thickness(es) --
8. Estimated duration of mining operations 20 Years
9. Has overburden, waste or rejected materials been classified as acid or alkali producing? () Yes (X) No
Does the above material being moved have any other characteristics affecting revegetation? No
10. Will any underground workings or aquifers be encountered? () Yes (X) No
Describe _____
Is there an active discharge of water from abandoned deep mines on or crossing the land affected? () Yes (X) No If yes, describe the quality of water being discharged. _____

11. Describe specifically a detailed procedure for: SEE ATTACHED sheet and map
- (a) The mining sequence
 - (b) The procedure for constructing and maintaining access roads, to include a typical cross-section and a profile of the proposed road grades.
 - (c) The procedure for site preparation including removing trees and brush.
 - (d) The method for removing and stockpiling topsoil or disturbed materials.
 - (e) The method for the placement or containment of all disturbed materials, to include the method for handling of all acid or alkali-producing and toxic material.
 - (f) A procedure for final stabilization of disturbed materials.

GRADING AND REGRADING

Specifically describe:

- (a) Typical cross-section of regrading.
- (b) The method of spreading topsoil or upper horizon material on the regraded area and indicate the approximate thickness of the final surfacing material.
- (c) What type of soil treatment will be utilized.
- (d) The method of drainage control for the final regraded area.
- (e) Maximum grading slope.

TESTING

1. Describe method for testing stability of reclamation fill material.
Based on experience at this pit local fill material is suitable for plant support.

Describe method for the testing of soil that is intended to support vegetation Samples of proposed growth mediums will be submitted to Utah State University for a basic fertility test.

2. Describe any soil treatment employed as an aid to revegetation _____
Fertilizer will be used, if necessary, to establish vegetation.

3. Describe surface preparation of areas intended to support vegetation:
Areas will be ripped and regraded

REVEGETATION

1. Revegetation to be completed by:
- | | |
|--------------------------------|--|
| (X) Operator | () Hydroseeding |
| () Soil Conservation District | () Aerial Seeding |
| () Private Contractor | () Conventional or Rangeland Drilling |
| Name _____ | (X) Other (specify) <u>Hand</u> |
| () Other (specify) _____ | |
2. Will Mulch be used? No
Type _____ Rate/Acre _____ lbs.

3. Revegetation Plan and Schedule -

Species	Rate/ Acre	Planting Location	Facing N-S-E-W	Season to be replanted
	20 Lbs.	---	---	Fall
Grass Mixture:				
1 Lb. Yellow Sweet Clover				
4 Lbs. Intermediate Wheat Grass				
4 Lbs. Crested Desert Wheat Grass				
1 Lb. Indian Rice Grass				
2 Lbs. Russian or Great Basin Wild Rye				

4. Will affected area be subject to livestock or wildlife grazing? ☐ Yes
☐ No Will vegetation protection be needed? NO, area is
only lightly grazed by livestock and wildlife.

5. Will irrigation be used? ☐ Yes ☒ No Type _____

6. Describe maintenance procedures for revegetation if needed, until surety release is granted. If initial planting does not become established,
area will be reseeded.

I, the undersigned Operator, hereby submit this to be my Reclamation and Mining Plan for the area shown on the attached map. I further understand that the operation will be conducted in accordance with the Mined Land Reclamation Act of 1975, and all rules and regulations currently in effect thereunder.

Signed Harvey P. Calhoun Operator Date March 2, 1977

Taken, subscribed and sworn to before me the undersigned authority in my said county, this 2nd day of March, 19 77.

Notary Public John J. Fickness

My Commission Expires: 12/29/78

11.

DURING OPERATIONS:

- (1) When present surface soils covering areas to be mined and will be stockpiled for later use.
- (2) Overburden waste will be deposited in mined out areas or piled in locations suitable for later regrading.
- (3) Clay will be ripped and stockpiled in designated areas.
- (4) All mining will be done in a safe orderly miner-like manner.

FOLLOWING OPERATIONS:

- (1) Areas disturbed and waste piles will be regraded to stable slopes of less than 45°.
- (2) Areas disturbed will be planted with a specific seed.
- (3) Surface structures, debris, and scrap will be buried, removed from the site or otherwise permanently disposed of.
- (4) Roads other than main access roads will be ripped, regraded and planted with a specific seed.
- (5) If the pit becomes a sanitary land fill, Interstate will not be responsible for reclaiming that portion of the disturbed area used as a land fill.
